

Cross-Border Family Mediation (CBFM) Training Sunday, 24th – Saturday, 30th September 2023 in Berlin, Germany

About this Training

The **MiKK 50-hour** advanced CBFM training course aims to qualify practicing family mediators to mediate cross-border family disputes, including international child abduction, access and custody cases. The course will cover the relevant legal aspects of international family conflicts, differences in national family legislation, the 1980 and 1996 Hague Conventions, the Brussels IIa Regulation & the new Brussels IIb (Recast) Regulation which entered into force in August 2022. The **new Regulation** will require judges to consider referring parents to mediation in **all cases** concerning children and particularly in international child abduction cases! Participants will be introduced to tools and methodologies for mediating high conflict cross-border family disputes with the aim of safeguarding the best interest of the child. Other key topics featured in this training include: **Culture and Conflict Resolution, Bi-lingualism and Mediation, Guidelines to Co-mediation, the Voice of the Child in Mediation and Online Mediation**. Drawing on the participants' experience, we will examine the issues involved when mediating across cultures. The training employs a variety of teaching formats including input lectures, small group work, discussion and film material. Case studies and role-plays form an integral part of the course. Interdisciplinary cooperation is a key aspect of the course.

A **team of international, multi-disciplinary trainers** who are experts in their respective fields and have hands-on experience will lead this highly interactive training course, aiming to equip international mediators with the required knowledge, skills and tools to mediate complex cross-border family disputes.

MiKK is the leading international training provider in the field of cross-border family mediation, having provided training in the field for more than 15 years. The standardized training concept was co-developed in the EU co-financed project *Training in International Family Mediation (TIM)* and MiKK piloted it in 2010. Over the past 12 years MiKK has continually adapted, improved and updated its CBFM training so as to keep abreast of any changes in the mediation landscape, recent legal developments and to incorporate the feedback of international participants. So far, Mediators from over 50 countries have successfully completed the MiKK CBFM training which regularly receives highly positive reviews (see also testimonials below).

We look forward to working with legal, psycho-social, educational and other professionals from a variety of cultural backgrounds and nationalities. Get ready to mediate cross-border family cases!

MiKK Trainings & Workshops

The **full 50-hour training** takes place annually in Berlin both in English and in German, as well as internationally in Japan and in Singapore. **Ongoing Trainings as well as Webinars** are offered to MiKK Mediators on a regular basis. Guest Speaker

Konstanze Welz - Building bridges between different cultures has always been at the heart of my work. For almost two decades - as a project manager in the German film industry - I have been traveling between Germany and Asia to bring together creative talent and economic forces from these parts of the world. Born into a German - Indian family and brought up in Germany, India and the US, I learned to navigate different cultures at an early age. In 2018, I started my own business as a cross cultural consultant. I wanted to combine my professional intercultural expertise with my very personal experience to support individuals and families struggling with cultural differences. When I learned about MiKK, I knew that my work had to

become even more personal. I had been abducted to India as a toddler and returned to Germany more than two years later. I experienced all the emotional pain this causes for a child and the whole family. I now work as a MiKK mediator and am currently training to become a trauma recovery coach.
